CLASS HISTORY

In the early fall of the year 1933, a group of thirty-nine booked passage on the ship "Veedersburg High School."

Our first year we elected "Captain" Ross Snyder, "First Mate" Ruth Campbell, and Secretary and Treasurer Evelyn Reynolds. Our nautical expedition ended in the late spring of 1934.

Toot! Toot! All aboard! Here we are as Sophomores on the train of our good old "Alma Mater." For "Engineer" we selected Horace Helms, "Fireman" Mary Jane Songer, "Conductor" Nina June Boatman. A mad scramble ensued but when the bedlam had subsided each had set his goal for either Academic, Commercial, or a Vocational course.

Honk-Honk! Here we come! A group of Jolly Juniors with hopes and expectations. Our taxis are a branch of the V. H. S. Taxi Company. Our "Chaperone" is Mary Jane Songer, "Head Mechanic" Ross Snyder, our "Supersaleswoman" Ruth Campbell, and "Cashier" Horace Helms.

We raised funds for our Junior-Senior reception by selling candy. On April 9, 1936, we stopped long enough for our amateur performance, "Crashing Society."

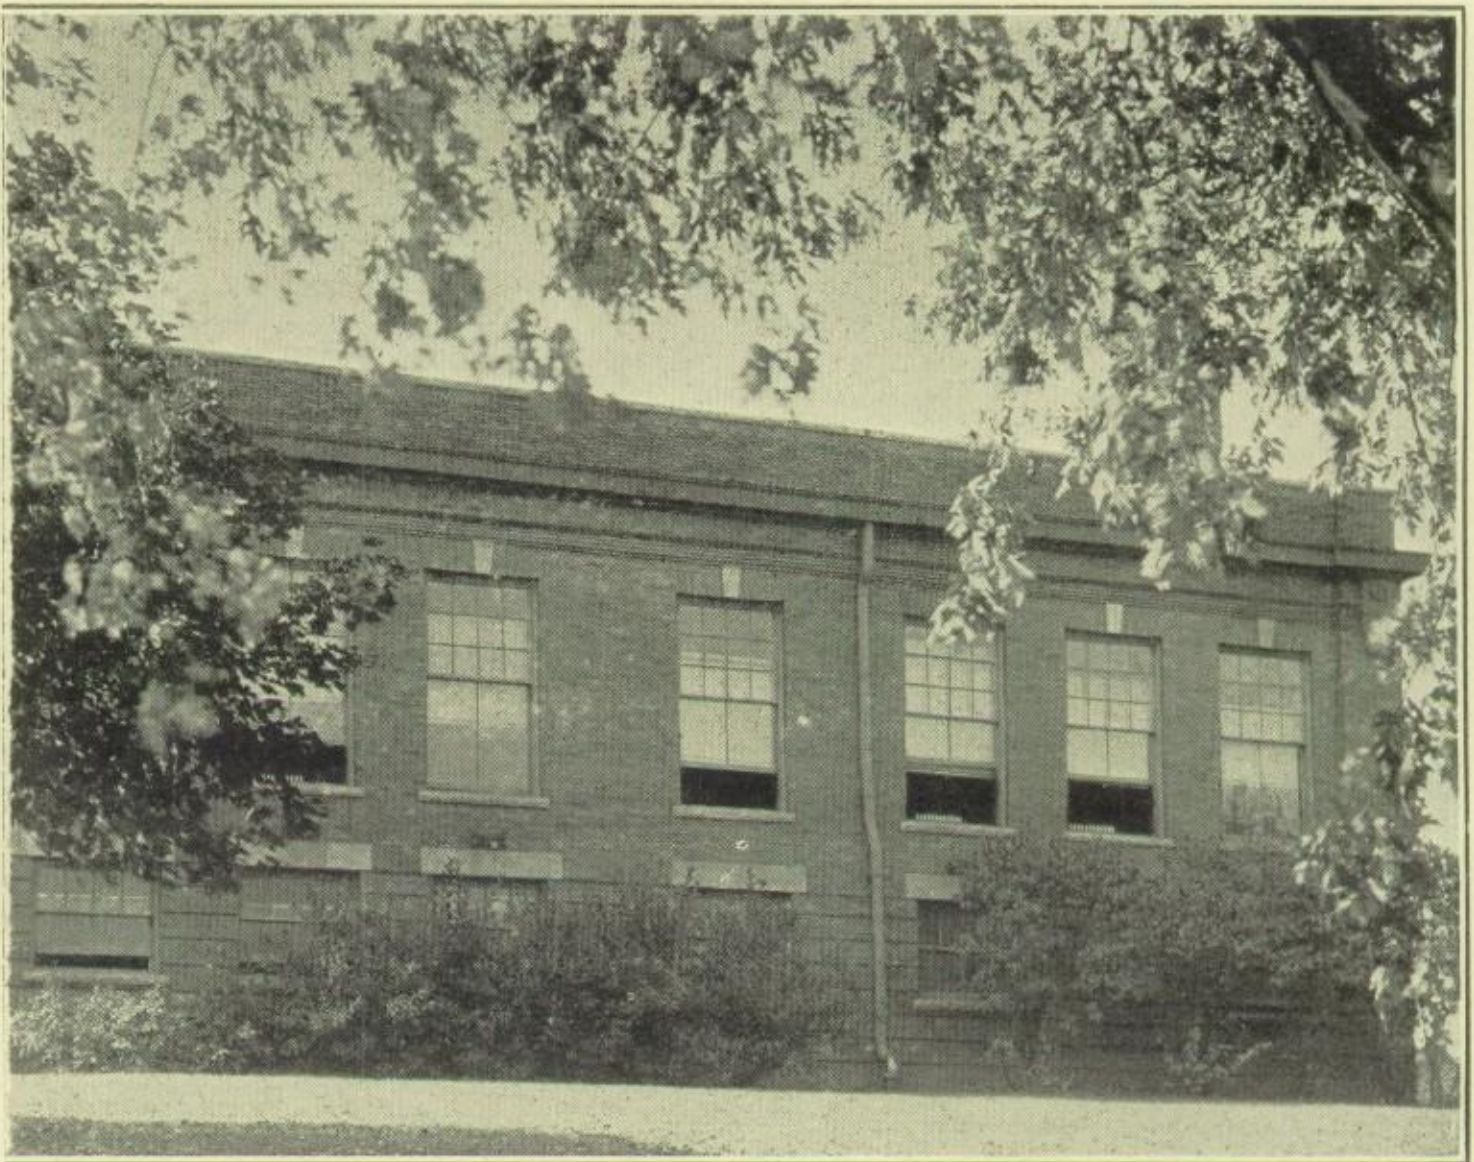

"Zoom!" We're off. Our big Zeppelin, the "D. C. W.," is carrying us toward our last destination in our High School career. In our midst of thirty-one passenger we find several new faces and at the same time we miss old ones. This year our "Pilot" is Ross Snyder, "Co-Pilot" Ruth Campbell, "Stewardess" Nina June Boatman.

Five of our members have gone through their intermediate and High School life together in Veedersburg Schools; four have come together from Sterling and five have come together from Stone Bluff.

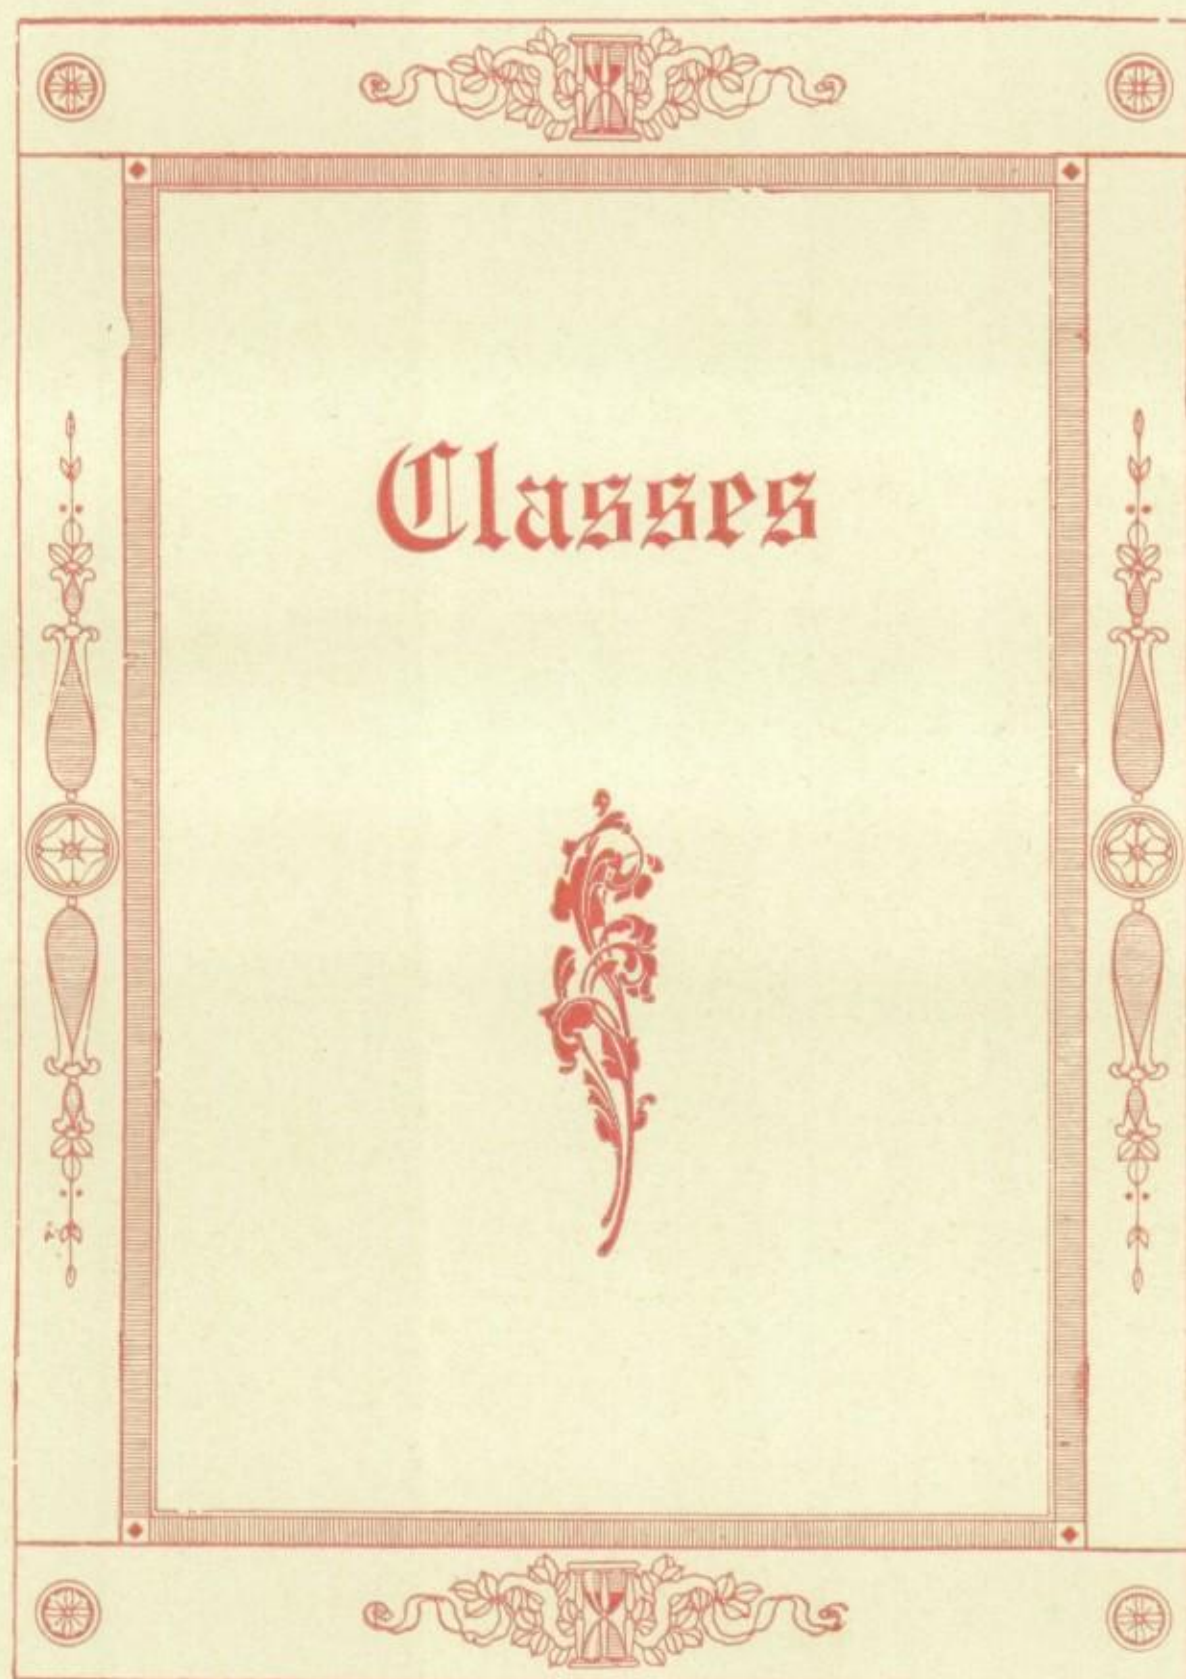

As adventurers we shall be happy to join the ranks of the Alumni, yet we are sorry our "Happy High School Days" are over. However, we appreciate the efforts of our parents, the faculty and all others who have made possible the fulfillment of our hopes and ambitions these last four years.

ACADEMIC COURSE

The Academic course is so arranged that after its completion, you are prepared to enter any higher institution of learning.

Its requirements include four years of high school English; three years of mathematics; three years of social science; two years of Latin or any foreign language; and two years of science. In other words a major is required in Mathematics, Social Science, and English. A minor is required in Science and foreign languages.

A major constitutes three years of work in a certain subject; a minor constitutes two years of work in one subject.

The remaining credits are elective. Thus a person may matriculate in two or more subjects in another department and still be classed as academic.

All Freshmen who have not taken Agriculture or Home Economics are classed as academic students. Some of them may elect the Commercial course in their Sophomore year.

The subjects taught are Typewriting, Bookkeeping, Shorthand and Office Practice. Pupils who have completed the Commercial Course are prepared to meet the requirements for college entrance.

Academic and Vocational students may elect one or more Commercial subjects during the four years and still meet the requirements of their own departments.

Seven hours of work per week are required in order to comply with an approved vocational course. Each boy must carry one or more home projects supervised by his vocational teacher, Mr. Cade. These projects are carried throughout the entire year.

This department was organized in the year of 1917, under the Smith-Hughes Act. This act provides that the Federal Government assume one-sixth of the total salary of the vocational teacher-

Students desirous of attending higher institutions of learning are enabled to meet all the necessary requirements if enrolled in this course.

HOME ECONOMICS

The Vocational Home Economics department includes general home economics; related arts; home nursing and child development; foods; and clothing. Girls enrolled in this course gain knowledge and skill through actual practice in cooking, sewing, and their home projects.

Each girl is required to complete one home project a semester. It must be related to the subject studied and an accurate record must be kept from beginning to end.

Vocational work is available through the summer months, to all girls residing in Van Buren Township. Regular class periods and definite plans of work are outlined. Projects are offered in clothing, baking, food preparation, canning, and room improvement. One girl may complete one or more projects during the summer. An average of seventy girls completed as many as one hundred projects last summer.

After their Freshman year, Vocational work is elective to all girls. However, all Freshman girls are required to take Home Economics and Biology as a related science.

CLASS PROPHECY

My position as a reporter on the New York Sun was not all enjoyment, but I felt quite pleased when I was assigned to interview the famous inventor, Professor Horace Helms. Upon reaching his laboratory, I was readily admitted when he learned that I had been one of his classmates in high school.

After showing me about his laboratory, he led me into a room where, to my astonishment, I gazed upon a queer looking machine of enormous size.

"That's my latest invention, the Photovision," Professor Helms told me. "Name anything you wish to see and I'll show it to you." After a few seconds of study, I stated my wish to see what had become of my dear old classmates of 1937.

"Be very quiet," the Professor told me, as he seated me before the plate of glass on which the pictures were to be shown.

As the machine was adjusted I recognized Ruth Campbell, the wife of a rich retired farmer, who had gained great wealth experimenting with soey beans. The couple are living in a small bungalow on the outskirts of Newtown, Indiana.

Lorin Haas, now famous pilot and inventor, was shown with his able mechanic, Sam Boatman, tuning up the motors of their latest invention, the Zipoplane. The daring couple had just completed a record-breaking trip around the world in forty-eight hours!

The scene changed to a huge dam where I beheld Joe Newman, chief engineer, explaining the plans to John Mellott, his assistant. This project is one of the largest engineering feats ever attempted.

Lillian Smith, famous woman interior decorator, has been contracted to furnish the castle, "Benito," in Italy. Many famous buildings have been re-decorated by the ingenious Miss Smith.

Next appeared a sign on State Street, in Chicago, which read:

"KING AND MORNOUT BEAUTY PARLOR"

These beauty experts are rapidly gaining recognition in the higher social set of that city.

The following scene took me back to my old home town, Veedsburg, Indiana, now a thriving metropolis with a population of 20 000 souls. All this increase in prosperity is due to the huge airplane factory built there by Charles Grigson, who was wise enough to realize that airplanes would soon be in more demand than automobiles.

In the all important finals at the State Basketball Tourney, I saw

a well drilled squad, headed by Coach "Bud" Lytle, run up a comfortable lead and then coast in to victory. I learned that this was the third consecutive year that Coach Lytle's Veedersburg Green Devils had won this honor.

Then appeared a mammoth hotel in downtown New York. On a door at the end of the lobby I read:

NADINE WINKS—MANAGER

Miss Winks is the first woman to successfully manage such a large hotel, which she does by catering to the likes of the social class, as to food and entertainment.

The machine became focused on a room in the huge Sears, Roebuck and Company building in New York. The room was filled with stenographers and after glancing around, I sighted Rose Anna Boord, who, because of her extreme efficiency, has been appointed supervisor over the scores of secretaries employed there.

Garland Fisher, declared by his employer as the world's number one bookkeeper, is taking a short vacation at Miami Beach in Florida. Won't those office boys be jealous of that tan when he returns to his work.

A huge hospital came into view, where I saw surgeon Thomas Keefe, the brain specialist, just completing the most hazardous operation of his career. Assisting him were: head nurse, Naomi Tibbett, and special nurse, Florence Briner, both well known aids to humanity.

New York opera fans were all agog over the latest sensational opera star, Madam Rigolini, and imagine my surprise when I saw that it was none other than Naomi Ruth Furr. Madam Rigolini is starred in the latest opera hit, "Vandeline."

In a luxurious apartment in East Chicago, I beheld Mary Jane Songer, the wife of Norman Cassel, entertaining a group of society friends. At the present time Mr. Cassel is vice-president of the Midland Steel Company, of East Chicago.

Mary Esther McClain appeared as the dean of an exclusive girls' school in a small town in the east. Girls from the most wealthy families of the country constitute the student body.

A large radio studio suddenly took form and I heard the announcer say, "Ladies and gentlemen, we are about to bring you another of those delightful hours with that teller of tall tales," and then who should step to the "mike" but Ralph Cushman.

"Hello, folks," he began, "back in my old home town—," the scene faded away and I didn't get to hear the story, but I'll bet it was a tall one!

Pintus

I then gazed on a peaceful scene of many acres of grazing land, dotted with a large number of dairy cattle. I saw the owner quietly observing his possessions, and immediately recognized Dan Wilson. The herd is well known to all dairy men as one of the best in the country.

Sitting in the Presidential chair of the United States, I saw Ross Snyder, pondering over the great national problem of securing enough men to keep the industries of the country from closing for lack of men to run them.

I had only a brief glimpse of the Secretary of State, but I quickly recognized him as Eugene Smith. He had recently returned from Europe, where he had completed his plans for everlasting international peace.

Leighton Boord, the manager of a large Schlosser Brothers Cream Company branch, was shown in his office balancing his books. "If the company's doing this well," said Leighton, "I'm going on to stage a sit down strike for higher wages."

Appearing in ballrooms in various parts of the country is the well-known "All Girl Orchestra," under the leadership of Nina June Boatman. Recently Miss Boatman's orchestra was voted the most popular hit in the field of music. It seems to have that "certain swing," which is essential to all famous orchestras.

The machine then flashed upon the screen the diamond of a National League ball park. Claude Linker, the home run king of the season, had just poled home run number fifty-six over the fence.

For her knowledge in the art of homemaking, Anna Young has recently been appointed Fountain County's Home Demonstration Agent. She is welcomed at every home because of her helpfulness in decorating, cooking and canning. "There's no household problem too hard for her to solve," says one of her enthusiastic friends.

The next scene was one of tense excitement. Clark Dillon, the dare-devil speed demon, was finishing his last ten laps in the Indianapolis Speedway, and was striving to set a new high speed for that track. If the whole race was driven with the recklessness of those last ten laps, a record has been set which will defy speed drivers for years to come.

Della Fogleman, a popular authoress, appeared, deeply engrossed in a huge stack of manuscript. Her latest book, "The Valley of Silent Women," has become one of the best sellers because of its extremely hilarious characters.

As the machine became silent, I turned and, with Professor Helms, left the room. After accepting his invitation to dinner the following day, I left, well pleased with the success of the class of 1937.

LYRICS

Joe Allen Newman, the boy from the "bluff,"
When trouble is started he's sure rough and tough.

Horace Helms a while back was small,
But now he has grown to be quite tall.

Of good natured seniors Rose Ann is the first,
But for getting her Physics she sure is the worst.

President Snyder, so gallant is he,
He doesn't mind Ross but he hates "Rossie."

Nadine Winks, who boasts of her knowledge
Will find it hard to get through college.

Florence Briner, so modest and shy,
Possesses fine points you cannot deny.

If in the assembly you hear a sneeze
From Della Marie did come the breeze.

John Mellott, a cornstalk king,
A major general in a threshing ring.

Naomi Furr, who insists upon Ruth,
Would be unhappy if she lost a tooth.

Charles Grigson from Justice Corner,
With his little sisters, plays Jack Horner.

Thomas Keefe the butler did play,
Picked up a plate and threw it away.

Ralph Lytle, a basketball player,
Perhaps some day he may be a mayor.

Loren Haas a pilot shall be
And fly o'er the country from sea to sea.

Leon Willhite will argue for fun
Till in the end a victory is won.

Claude Lee Linker is "possum" to us
A good looking senior who never will fuss.

Lillian Smith, slight, slim and slender;
Any favor you ask, she will render.

Pintus

Ralph Cushman, the lad with the curls,
Goes to Covington to find his girls.

Clark Dillon, our boy from the farm,
Likes the girls who do him no harm.

Leighton Boord, as quiet as a mouse,
We hardly know he's in the house.

Sam Boatman, our basketball star,
Brings all the fans from afar.

Mary Jane Songer, who giggles all day;
She'll always be happy if she can play.

Nina June Boatman, the head of our staff,
When she gets tickled, we all laugh.

Anna Young has gone to school
And never broken the golden rule.

Mary McClain, a studious lass,
Will have her lesson when she comes to class.

In English we had proved to us
That Dan Wilson was a genius.

Whether it's cold, or whether it's hot,
Ruth will like Soey, whether or not.

Garland Fisher, who Elouise does love,
Will later build a cottage for his little dove.

Margaret Mornout with Holland was seen,
She lives in the country, where pastures are green.

Naomi Tibbett, men's hearts she does break;
A good grade in Physics she never did make.

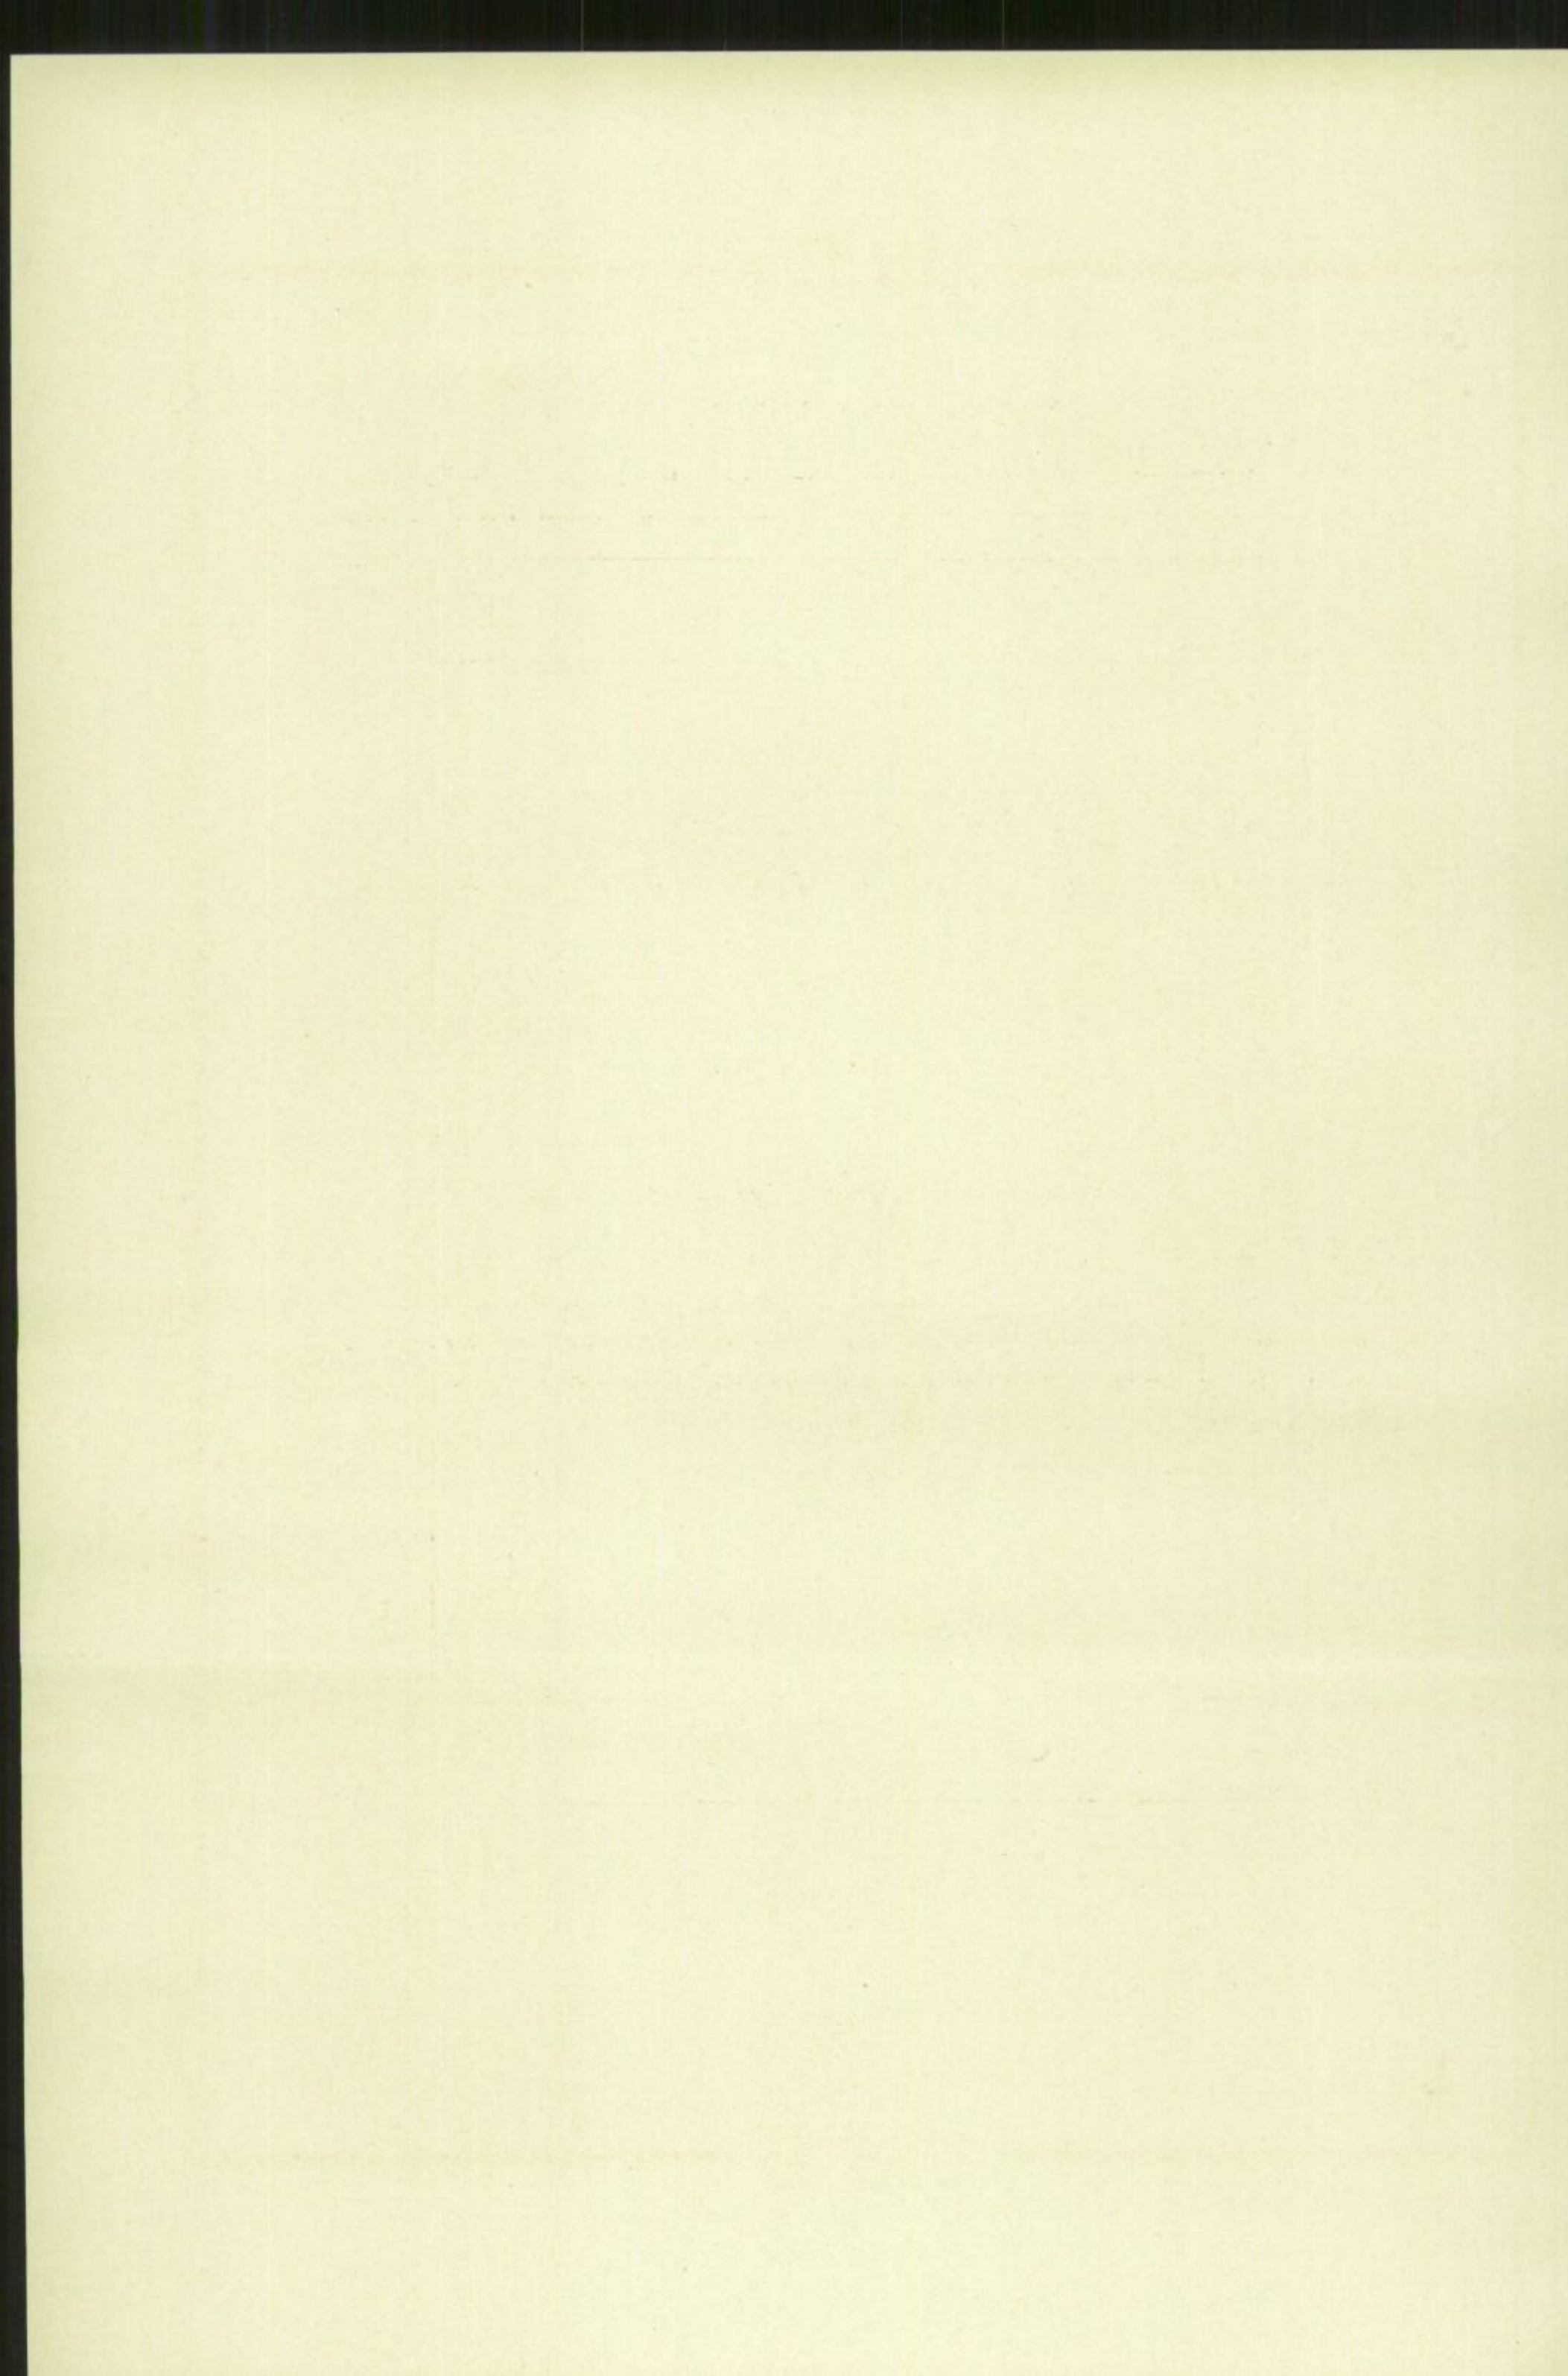

Irene King will go in for beauty
And make up the women to look "sorta loony."

If I keep on writing, I'll use all the space
That I was allotted, for these lyrics to place,

So I'll cut off now, before it's too late,
And will my job to the class of thirty-eight.

Social Side

SENIOR PARTY

The "dignified" Seniors started the year in a very undignified manner with a weiner roast Thursday, October 15, in Patton's woods. Each one, including Mr. Dockins, was in a very peppy mood and, after several contests and running games, we were able to do full justice to the weiners and marshmallows. But a perfectly good onion was ruined when Bill Walter had his face massaged with it (much to his enjoyment!)

JUNIOR PARTY

The following night, October 16, the Junior Class held a party in the Scout Cabin with their sponsors, Miss Madigan and Mr. Cade. The evening was spent in games and dancing after which refreshments of ice-cream and cake were served. It seems that Mr. Cade was quite the Popular Don Juan of the evening. How's your dancing, Mr. Cade?

SOPHOMORE PARTY

The Sophomores also held a weiner roast Friday night in Glascock's woods. Everyone reported that they had had a grand time and lots of weiners. Kenneth Newman provided some excitement when he accidentally ran into Miss Branham. We are glad to say, however, that she was only stunned and the fun was soon resumed.

FRESHMAN PARTY

This seems to be a popular week for weiner roasts and parties. Not to be left behind, the Freshmen had a weiner roast in the North Woods. They played games and ate all the weiners and marshmallows they could hold, then came home at an early hour like all good Freshies should. Their sponsors were Mr. Shouse and Mrs. Huestis.

HAMBURGER FRY

To put some pep and enthusiasm into their organization, the Girl Reserves held a hamburger fry at the Hub Park, Tuesday evening, October 20. Three girls were kept busy frying for the thirty-four hungry members who were present to enjoy the fun.

GIRL RESERVE PARTY

The Girl Reserves entertained nineteen members of the first grade pupils at a Christmas party on Tuesday evening, December 22, at the High School building. After a Christmas story by Mona Lang, the guests were entertained with games which they all enjoyed. Each guest received a gift and a treat and from the "ohs" and "ahs" which were heard it was evident that all had a good time.

SENIOR PARTY

In order to hurry up the Annual sales, it was agreed between the boys and girls of the Senior Class that the side which sold the most Annuals would be entertained by the other. After being ahead for three months, the girls were defeated at the last minute by a small margin of nine Annuals. This long waited for and much talked about entertainment was held Tuesday, February 2, in the form of a buffet supper at the school building. After supper games and contests were enjoyed by the twenty-four attending classmates, two sponsors, and special guests, Mrs. Ruby Snyder and Mr. Harry Gunn. Bingo prizes were won by Nadine Winks, Lorin Haas, Mr. Walters, and Mr. Dockins. Mary Jane Songer, Claude Linker, Nina June Boatman and Ralph Cushman won amateur dancing prizes. The boys had said that they were just coming for the "eats," but we noticed that none of them left until after the entertainment.

HOME ECONOMICS DINNER

On Tuesday evening, November 24, the Advanced Foods Class enjoyed a Thanksgiving supper consisting of: fried chicken, gravy, candied sweet potatoes, mashed potatoes, cranberries, pumpkin pie, and whipped cream. The twenty-one members of the class were present with their teacher, Miss Madigan, acting as chaperon. A Thanksgiving story was told by Betty Starkey, after which those present enjoyed playing bunco and bingo.

SYNOPSIS

Judge Taggert, his wife and two daughters are living peacefully in a small village, when Mrs. Taggert decides she is ill and calls in a doctor. She also confides in him that her husband has been acting peculiarly. He suggests that they take a trip, but the Judge thinks his duties are too pressing to leave. His secretary calls and informs him that Jim, the Dandy, a notorious criminal whom the Judge sentenced, has escaped prison and declared vengeance upon him. He is very anxious to get away but his wife becomes suspicious of him and refuses to go. The secretary suggests that he leave town and let people think he is dead until the criminal is captured, which he does. Meanwhile, his twin brother, Ernest, appears, and everyone, even Mrs. Taggert, mistakes him for the Judge, which causes all sorts of mixups. GOOD CITIZENSHIP AWARD

The Daughters of the American Revolution are sponsoring another Good Citizenship Pilgrimage to Washington, D. C., this spring. The Society asked that names of girls be selected from the Senior class of the Veedersburg High School.

Each member of the Senior class has one vote on any girl in the class whom he thinks is qualified in excelling in the following characteristics:

DEPENDABILITY

Moral strength—stability of purpose.

SERVICE

Co-operation—helpfulness—responsibility.

LEADERSHIP

Personality—self-control—originality.

PATRIOTISM

Unselfish loyalty to American ideals.

From the three girls receiving the highest number of votes, the faculty will select one as the choice of the class. Her name will be put with the names of the winners from the various High Schools competing in the contest. The final selection by lot will be made at the state council meeting, under the supervision of the State Superintendent of Public Instruction, and the State D. A. R. Good Citizenship Committee. The winner will receive a five-day trip to Washington.

The three girls selected by the Senior class were Nina June Boatman, Anna Young, and Ruth Campbell. From these, the faculty selected Nina June Boatman to represent our school at the final selection in Indianapolis.

D. A. R. MEDAL

Each year the American History Class writes a series of essays on various subjects related to American History. When they have completed these, one is picked at random and without further preparation the students write upon the subject chosen. The papers are then graded by a non-interested member of the D. A. R. Society. At Commencement a medal is awarded by the Society to the person who has written the best essay.

The subjects prepared this year were:

1. Launching the Government.

THE UNITED STATES AS A WORLD POWER

During the first century of their existence, the Americans seldom thought of acquiring foreign possessions or of seeking trade with foreign countries. The vast territories in the West were still inviting settlement and the consumption was still greater than the amount of manufactured goods. With the growth of giant industries the great manufacturers began to seek new outlets for their products which began our dealings with foreign countries through commerce.

Between San Francisco and Australia was a small group of islands in the trade path of the Americans. With the inhabitants, the United States had made a treaty which gave her coaling stations on these islands in return for protection. Similar treaties were made by these inhabitants with Germany and England, and when it was learned that Germany was trying to take complete control, the United States stepped in to interfere by placing one of her battleships between the German warship and the town upon which she was intending to fire. Naturally England rushed to the scene of controversy and war seemed inevitable, when a hurricane dashed all the ships to pieces except a British man-of-war, ending all thoughts of war. This was the first dealing with other countries in which the United States agreed to share rule of any territory or a group of islands.

Immediately, however, all eyes turned from the southern to the northern Pacific where England and the United States were having trouble over the Bering Sea. When the United States had purchased Alaska in 1867 the Bering Sea was known as a closed sea, which had allowed only Russians to seek furs and seals in that place. The Americans therefore retained this belief, but when eight British sealers were caught outside the three mile limit, Great Britain objected bitterly. Again the quarrel was settled by arbitration which decided against the United States and compelled her to pay damages to the British. Steadily the United States was gaining recognition in dealings with other nations.

In Hawaii the people had enjoyed a liberal rule and were pleased with their king, until in 1873 when a new king pushed the old customs aside and began a rule which was very disagreeable, and the people forced a liberal constitution upon him. At his death, his sister became queen and she was still more tyrannical than he. Under S. B. Dole the people formed a republic and the United States was called upon for aid.

Pintus

The queen did not resist, because she knew she had no chance against the power of our country. Later Hawaii was annexed to the United States and their people made citizens of our country. This showed a recognition of our country as a power and began our acquiring of foreign people as citizens, who were living elsewhere.

When, in Venezuela, Germany claimed some territory rightfully belonging to Venezuela, they called for aid, but the United States did not comply until they learned that Germany was trying to take harbors and make strong forts on the Venezuelan coast. Then they were forced to give up their claims, because they were violating the Monroe Doctrine, which said that foreign powers had no right to interfere with governments already established in either of the American continents.

In Cuba, the Spaniards had placed a man of their own selection on the throne, who was causing great turmoil and uprisings among the people. Vast numbers perished because of starvation and disease, because they were placed in huge pens like cattle and left to their own fate. When these conditions were learned in the United States, the people immediately began to object because their interests in Cuba exceeded fifty million dollars.

War did not begin, however, until after the "Maine," one of our ships, had been destroyed in the Havana Harbor. It has never been proved that the Spaniards sank this ship, but it was taken as an immediate cause for war, and in 1898 Admiral George Dewey destroyed the Spanish fleet in Manila Bay in the Philippine Islands.

The American troops were hastened to Cuba, but there sickness and death overtook them. However they succeeded in defeating the Spaniards in Santiago, and a treaty was made.

By this treaty Spain ceded Porto Rico and Guam to the United States, gave up Cuba and in return for twenty million dollars gave the United States the Philippine Islands.

In Cuba a republic was set up with the United States acting as a big brother to protect them against revolutions and unfair countries.

In Porto Rico the governor is appointed by the United States but the members of the Congress are elected by popular vote.

Hintus

The Philippines were at that time our greatest problem. Many people objected because they said it was just the opposite of our belief when we fought the Revolutionary War. Many revolutions were held in the Philippines but the President finally caused them to become peaceful by building railroads, roads, bridges and institutions to further their progress and education. Today they are in the form of a republic and if their experiment is successful the United States is going to give them their freedom as an independent nation.

Columbia refused the United States offer to make a canal through their territory, so when Panama revolted, they immediately were recognized as an independent nation and the United States was given the perpetual use of their isthmus for a fair sum of money and two hundred and fifty thousand dollars annually as rent. Immediately a canal was begun and after several years of fighting disease and excavation work it was completed in 1914. This canal is known as the Panama Canal and has been very useful to all nations of the world, both in times of war and for commercial purposes.

For many years China had maintained "closed doors," and when foreign nations would seek her trade and try to help them, rebellions would swiftly follow. In order to prevent China from being torn into bits by various nations the United States issued her "open door" policy and after the "Boxer Rebellion," China was forced to pay indemnities to those nations whose citizens were mistreated in China. The United States returned the award, however, to China, and the Chinese are using it to educate their citizens in the United States.

Thus with our treaties with other nations and dealings with the unfortunate smaller nations, digging of canals and growth of army and navy we have advanced rapidly as a "world power," and since the World War we have become known as one of the five greater world powers of all the nations in the world.

BASKETBALL BOYS

First Row: Elwyn Winks, Wilmer Keller, Horace Helms, Lowell Crane, Samuel Craig.

Second Row: Jewell Shirley, Richard Williams, Charles Grigson, Sam Boatman, Russell Smith, Ralph Lytle, Jimmy Drollinger.

Third Row: Ralph Cushman (Student Manager), Robert Draper, Harold Roach, Clark Hershberger, Fred Crane, Delmur Schuler, Gordon Mullin, Coach Shouse. (Absent, Claude Linker).

BASKETBALL SCHEDULE

The general expectation at the first of the year was that Veedersburg, with the loss of Cronk, Holland, Glascock, and Layman, would not be able to afford much competition for the other strong quintets who retained most of their varsity boys. However, Coach Shouse succeeded in picking a squad which has given the opponents much more trouble than they expected. The group of boys that made up the squad are as follows: Boatman, Linker, Grigson, Smith, Williams, Lytle, L. Crane, Helms, Drollinger, Hershberger, Shirley, Roach, Keller, Craig, F. Crane, Mullen, Draper, and Winks.

Veedersburg 26

Kingman 15

On November 4, Veedersburg opened the basketball season, playing the Kingman Black Aces, on our home floor. The game was very close until the last quarter, when the Green Devils came forth with a burst of speed and defeated the visitors by 11 points. Linker led the scoring for Veedersburg with 7 points.

Veedersburg 22

Cayuga 23

The second game of the season was played against the powerful Cayuga team. Although the game was hard fought and the lead changed hands many times. Cayuga nosed out the local boys in the last minute of play. Crane was high scorer for Veedersburg with 10 points.

Veedersburg 19

Bainbridge 16

Veedersburg next played Bainbridge and succeeded in conquering them in a fairly close game. Veedersburg led at the half 12 to 6 and did not relinquish their lead during the rest of the game.

Veedersburg 13

Hillsboro 27

On November 25, the Green Devils journeyed to Hillsboro for their first "out-of-town" game. Due to the closeness of playing quarters and Hillsboro's exceeding height, Veedersburg was overpowered in a rather one-sided game. Hillsboro held only a 2 point lead at the half, the score being 9 to 7.

Veedersburg 17

Crawfordsville 34

On December 4, Crawfordsville came to Veedersburg and had no difficulty in defeating the Green Devils, who were badly off form.

Pintus

Although Veedersburg has defeated the Athenians many times in the preceding years, the visitors were able to hit from any place on the floor and therefore "turned the tables" on the Green Devils. Crawfordsville led 23 to 8 at the half and remained on top during the remainder of the game.

Veedersburg 22

Attica 23

The next game was played at Attica in a combat which ended unfavorably for the Green Devils. Veedersburg's yearly game with Attica is always a close and hard fought battle, and this one was no exception to the rule, the score at the half being 14 to 11 in favor of Attica. The final score was a one point margin.

Veedersburg 22

Covington 17

Covington came to Veedersburg on December 18 but failed to defeat the local boys who held a five point lead at the end of the game. The first half, which was very close, ended in a deadlock 10 to 10. Linker was high scorer for Veedersburg with 12 points.

Veedersburg 21

Roachdale 19

Veedersburg's next game was at Roachdale and the Green Devils had no trouble in defeating them although the game ended with a close score. Roachdale led at the end of the first half 9 to 8 but shortly after the third period began Veedersburg took the lead and retained it until the end.

Veedersburg 49

Waynetown 15

The Green Devils completed the week end with an over-whelming victory over Waynetown. The second five played a great part of the game and the score was not as one-sided as it might have been. Veedersburg led 26 to 4 at the half and continued their scoring by making 23 points the last half.

Veedersburg 23

Hillsboro 19

The first game after the Christmas vacation was played against Hillsboro, who had over-powered Veedersburg earlier in the season. However, Coach Shouse's boys had improved greatly since then, and succeeded in defeating the Wildcats in a hard fought game. The local boys used a fast-passing attack and so worked the ball past the tall Hillsboro boys.

Pintus

County Tourney

The tournament this year was held on Veedersburg's own floor and the first game saw the local boys matched against Covington. The Green Devils had already defeated Covington previous to this and therefore the Trojans were out for revenge. The result was an overtime game which was taken by Covington, after scoring twice in the last minute of play. The final score was 26-24.

Hillsboro, after defeating Wallace in their first game, succeeded in winning the final game against Kingman by a score of 28 to 22, and thus became the new County Champs.

Veedersburg 31

Covington 23

The next game was played at Covington and Veedersburg had no difficulty in defeating the Trojans by an eight point margin. After this game the score stood at two wins and one loss for Veedersburg against Covington.

Veedersburg 23

West Lebanon 22

The Green Devils next invaded West Lebanon and took a 12 to 8 lead at the halftime. This lead was not relinquished throughout the game, although West Lebanon came within one point of tying the score.

Veedersburg 19

West Lafayette 21

On January 27 West Lafayette came to Veedersburg for their yearly combat, which turned out to be one of the most exciting games of the year. At the half the score stood at 12-10, Veedersburg. However, after a double over-time West Side was able to "come out in front" by a two point margin.

Veedersburg 17

Williamsport 15

Williamsport came to Veedersburg for the next game which was won by the local boys, by a very close score. Good defense on the part of both teams was the outstanding factor of the game.

Veedersburg 44

Warren Central 21

The Green Devils then met Warren Central of Indianapolis and were never threatened by the visitors, during the entire game. Veedersburg took a 27-14 lead at the half and continued to add to their score the remainder of the game.

Veedersburg 22

Kingman 21

Since Kingman's new gym had not been completed, the Black Aces played Veedersburg here on February 10. This was a very fast game with the Green Devils leading 16-8 at the half. However, Kingman made a strong comeback and drew within one point of Veedersburg.

Veedersburg 54

Wingate 20

The next game was played against Wingate and the Green Devils immediately took the lead and held it. The score at the half was 30-9 in favor of the "Devils."

Veedersburg 45

Rockville 26

Veedersburg next journeyed to Rockville and for the third time in the last four games went on another "scoring spree." Williams was high scorer for Veedersburg with 20 points.

Veedersburg 27

Boswell 36

On February 20, Veedersburg went to Boswell, where they met a large amount of opposition. Due to Boswell's "deadlines" on baskets, Veedersburg was never within reach of them. Score at the half was 26 to 14, Boswell.

Veedersburg 20

Pine Village 29

The final game of the season was played against Pine Village. This game was very fast and featured "fast passing attacks" used by both teams.

Sectional Tourney

The first Veedersburg game was against Kingman, twice defeated this season. V. H. S. again overpowered the Black Aces by a 35-27 score.

In the second game Veedersburg met Hillsboro, the pre-tourney favorites. The Green Devils succeeded in stopping the Wild Cat threats, and eked out a 29-27 victory.

After winning these two games Veedersburg was entitled to go to the finals against Williamsport. This year was the third year straight that Veedersburg has gone to the finals. Again, according to custom, the Green Devils lost a hard fought, close combat which was their second double overtime game this season. The final score was 35-32.

"Smell anything, grandmother?" asked the youngster who was lying on the floor drawing.

Grandmother assured him she did not.

The young artist gave a few finishing touches and repeated his question. Grandmother sniffed the air, and again declared she smelled nothing.

"Well," said the boy, "you ought to, I have just drawed a skunk!"

A man lost a valuable dog and advertised in a newspaper, offering five hundred dollars for it, but got no replies. He called at the office.

"I want to see the advertising manager," he said.

"He's out," said the office boy.

"Well, his assistant."

"He's out, too, sir."

"Well, I'll see the editor."

"He's out, sir."

"Great Scott! Is everybody out?"

"Yes—they're all hunting your dog."

Mrs. Keller: "That must stop. Those little things have as much right to live as you have."

Mr. Cade: "If you can't do your work better I'll have to hire another girl."

Mrs. Cade: "Well, I'll give you a dime; not because you deserve it, mind, but because it pleases me."

Tramp: "Thank you, mum. Couldn't yer make it a quarter an' thoroughly enjoy yourself?"

"Stop!" thundered the man in the barber's chair who was having his hair trimmed. "Why do you insist upon telling me those horrible, blood-curdling stories?"

"I'm sorry, sir," said the barber, "but when I tell stories like that, the hair stands up on end and makes it much easier to cut, sir."

Mr. Shouse: "What is this lump in the cake?"

Mrs. Shouse: "Dearest, it's cottage pudding and that must be the foundation."

CLASS COLORS

The Freshmen of 1936-'37 have as their class colors lavender on a white background.

The Sophomores are represented by a flag of blue and white.

The symbol of the Juniors is an orange and white flag.

Our Senior class selected red and white when we were Freshmen. To conform to this scheme, we have published the book in a red and white plan.

EDITOR'S NOTE

I wish to express my appreciation and gratitude to the members of the staff, the faculty and all others who assisted in publishing this twenty-ninth edition of The Pintus.
